

ASPE

Issue BRIEF

ADDENDUM TO THE HEALTH INSURANCE MARKETPLACE SUMMARY ENROLLMENT REPORT FOR THE INITIAL ANNUAL OPEN ENROLLMENT PERIOD

**For the period: October 1, 2013 – March 31, 2014
(Including Additional Special Enrollment Period Activity through 4-19-14)
May 1, 2014**

This Addendum contains detailed State-level tables highlighting cumulative enrollment-related information for the Health Insurance Marketplace (Marketplace) during the initial open enrollment period (10-1-13 to 3-31-14), including activity associated with individuals who qualified for a Special Enrollment Period (SEP) through 4-19-14.¹ The data on SEP activity include information for those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who qualified for an SEP for other reasons.² These tables include data for states that are implementing their own Marketplaces (also known as State-Based Marketplaces or SBMs), and states with Marketplaces that are supported by or fully run by the Department of Health and Human Services (including those run in partnership with states, also known as the Federally-facilitated Marketplace or FFM).

LIST OF TABLES

Appendix A:	Characteristics of Marketplace Plan Selection by Gender, Age, Metal Level, and Financial Assistance, 10-1-2013 to 3-31-2014 (including Additional Special Enrollment Period Activity through 4-19-14)	
	• A2 - By Gender and State	Page 2
	• A3 - By Age and State	Page 5
	• A4 - By Metal Level and State	Page 7
	• A5 - By Financial Assistance and State	Page 10
Appendix B:	Additional Characteristics of FFM Marketplace Plan Selections, 10-1-2013 to 3-31-2014 (including Additional Special Enrollment Period Activity through 4-19-14)	
	• B2 - By Gender and Age and State	Page 13
	• B3 - By Gender and Metal Level and State	Page 16
	• B4 - By Financial Assistance Status and Metal Level and State	Page 19
	• B5 - By Metal Level and Age and State	Page 22

¹ The full Marketplace Summary Enrollment Report can be accessed at http://aspe.hhs.gov/health/reports/2014/MarketPlaceEnrollment/Apr2014/ib_2014Apr_enrollment.pdf.

² This includes persons who have a qualifying life event that qualifies them for a SEP (such as a change in marital status, a change in dependents, or losing minimum essential health coverage), or a complex situation related to applying for coverage in the Marketplace. Additional information on Marketplace SEPs can be found at <https://www.healthcare.gov/how-can-i-get-coverage-outside-of-open-enrollment/#part=2>.

**APPENDIX A: CHARACTERISTICS OF MARKETPLACE PLAN SELECTION BY GENDER,
AGE, METAL LEVEL, AND FINANCIAL ASSISTANCE STATUS
10-1-2013 TO 3-31-2014
(INCLUDING ADDITIONAL SEP ACTIVITY THROUGH 4-19-14)**

APPENDIX TABLE A2

Marketplace Plan Selection by Gender, Marketplace Type and State (1) <i>10-1-2013 to 3-31-2014 (Including SEP Activity through 4-19-14)</i>				
Description	Total Number of Individuals Who Have Selected a Marketplace Plan (2)	Number of Plan Selections With Available Data on Gender (3)	By Gender <i>(% of Available Data, Excluding Unknown)</i>	
			Females	Males
	Number	Number	%	%
States Implementing Their Own Marketplaces (SBMs)				
California	1,405,102	1,405,102	52%	48%
Colorado	125,402	125,402	52%	48%
Connecticut	79,192	79,192	53%	47%
District of Columbia	10,714	10,361	52%	48%
Hawaii	8,592	8,592	50%	50%
Kentucky	82,747	82,747	51%	49%
Maryland	67,757	67,757	54%	46%
Massachusetts	31,695	N/A	N/A	N/A
Minnesota (4)	48,495	42,969	51%	49%
Nevada	45,390	N/A	N/A	N/A
New York	370,451	370,451	51%	49%
Oregon (5)	68,308	68,308	57%	43%
Rhode Island	28,485	28,485	52%	48%
Vermont	38,048	38,038	53%	47%
Washington	163,207	163,207	58%	42%

Wyoming	11,970	11,969	55%	45%
FFM Subtotal	5,446,178	5,444,965	55%	45%
MARKETPLACE TOTAL, All States	8,019,763	7,935,576	54%	46%

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the SBMs and FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections

that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) Minnesota – At this time, Minnesota is unable to provide age, gender, and metal level breakouts for manual enrollments. The data shown here exclude manually processed enrollments.

(5) Oregon – The breakout by gender is an estimate based on analysis of a special-purpose QHP enrollment file with demographic and plan choice information extracted from Cover Oregon’s database for the reporting period. To provide estimates, breakout percentages from the file were applied to a non-duplicative count of QHP enrollments for the reporting period.

(Extraction of demographic and plan choice information for the special-purpose enrollment file creates some duplicate records.)

(6) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

MARKETPLACE TOTAL, All States	8,019,763	8,005,700	6%	11%	17%	17%	23%	25%	0%	28%

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the SBMs and FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) Minnesota – At this time, Minnesota is unable to provide age, gender, and metal level breakouts for manual enrollments. The data shown here exclude manually processed enrollments.

(5) Oregon – The breakout by age is an estimate based on analysis of a special-purpose QHP enrollment file with demographic and plan choice information extracted from Cover Oregon’s database for the reporting period. To provide estimates, breakout percentages from the file were applied to a non-duplicative count of QHP enrollments for the reporting period. (Extraction of demographic and plan choice information for the special-purpose enrollment file creates some duplicate records.)

(6) Washington – The breakout of plan selections by age for Washington exceeds the total by 2; data are in the process of final reconciliation.

(7) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

MARKETPLACE TOTAL, All States	8,019,763	8,005,697	20%	65%	9%	5%	2%

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the SBMs and FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who

experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) The SBM and FFM subtotals for each metal tier type do not sum to the total number of Plan Selections With Available Data on Metal Level due to instances where consumers selected more than one plan type in their state (for example, some consumers have enrolled in both a health plan and a standalone dental plan). As a result, the corresponding percentages also do not sum to 100 percent. This also affects the data for the Marketplace total. To the extent possible, duplication associated with standalone dental plan selection has been removed from the data shown in this table.

(5) Minnesota – At this time, Minnesota is unable to provide age, gender, and metal level breakouts for manual enrollments. The data shown here exclude manually processed enrollments.

(6) Oregon – The breakout by metal level is an estimate based on analysis of a special-purpose QHP enrollment file with demographic and plan choice information extracted from Cover Oregon's database for the reporting period. To provide estimates, breakout percentages from the file were applied to a non-duplicative count of QHP enrollments for the reporting period. (Extraction of demographic and plan choice information for the special-purpose enrollment file creates some duplicate records.)

(7) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

MARKETPLACE TOTAL, All States	8,019,763	7,871,563	85%	15%

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the SBMs and FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the

Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) Maryland – Maryland is currently in the process of consolidating premium assistance data (APTCs and CSRs) into a single report, and is unable to provide breakout of enrollment by financial assistance.

(5) Minnesota – Minnesota is currently in the process of consolidating cost-sharing and assistance data (APTCs and CSRs) into a single data file, and is unable to provide breakout of enrollment by financial assistance.

(6) Oregon – The breakout by financial assistance is an estimate based on analysis of a special-purpose QHP enrollment file with demographic and plan choice information extracted from Cover Oregon’s database for the reporting period. To provide estimates, breakout percentages from the file were applied to a non-duplicative count of QHP enrollments for the reporting period.

(Extraction of demographic and plan choice information for the special-purpose enrollment file creates some duplicate records.)

(7) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan through the FFM (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who

experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) The FFM subtotals for each metal tier type do not sum to the total number of Plan Selections With Available Data on Metal Level due to instances where consumers enrolled in more than one plan type in their state (for example, some consumers may have enrolled in both a health plan and a standalone dental plan). As a result, the corresponding percentages also do not sum to 100 percent. This also affects the data for the Marketplace total. To the extent possible, duplication associated with standalone dental plan selection has been removed from the data shown in this table.

(5) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the FFM, and have selected a plan (with or without the first premium payment having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made

between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) The FFM subtotals for each metal tier type do not sum to the total number of Plan Selections With Available Data on Metal Level due to instances where consumers enrolled in more than one plan type in their state (for example, some consumers have enrolled in both a health plan and a standalone dental plan, which may have different metal levels). As a result, the corresponding percentages also do not sum to 100 percent. This also affects the data for the Marketplace total.

(5) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

Notes:

“N/A” means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding. Data distributions for states with very small numbers of Marketplace plan selections for a given metal level have been suppressed in the state-level data, but are included in the FFM total.

(1) Unless otherwise noted, the data in these tables represent cumulative data on the number of unique individuals who have been determined eligible to enroll in a Marketplace plan through the FFM, and have selected a plan (with or without the first premium payment

having been received by the issuer). Special Enrollment Period (SEP) activity includes plan selections that were made between 4-1-14 and 4-19-14 by those who qualified for an SEP because they were “in line” on 3-31-14, as well as those who experienced a qualifying life event or a complex situation related to applying for coverage in the Marketplace. For additional methodological information, please refer to Appendix F of the Marketplace Summary Enrollment Report.

(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.

(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.

(4) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.
